

# 40TH ANNIVERSARY

*Big Jim's All Smiles*

JIMS® celebrates 40 years of history manufacturing performance parts for use on Harley-Davidson® Motorcycles. Opening in 1967, JIMS established itself as one of the frontrunners in the aftermarket Harley-Davidson performance industry. Over the years JIMS has grown, based mainly on product quality and word of mouth.

*NHRA & V-Twin Awards*

*JIMS 1ST Crank pin*

*JIMS 1ST Tappet*

*JIMS Catalogs*

Since then the facility has grown and expanded into one of the premier manufacturing venues in the country. Growing from one small corner of an industrial building, to three large buildings at almost 50,000 square feet, housing state of the art manufacturing machines.

We pride ourselves in manufacturing as much as we can 'in house', which, in turn, guarantees the best quality available. So next time your out on the road, be it riding to Sturgis, or just out on a weekend ride - keep your eyes open for Jim, or one of the JIMS crew riding right out there beside you - testing the products we manufacture, and of course having fun doing it!

*One last word from Jim -*

**"Buy American!!!"**

*Parts Installed On Tombstone*

*JIMS Lifetime Achievement Award*

*JIMS Timken Bearing Sleeve*
