This gasket and seal kit is for the JIMS FAT 5 Transmission. Below is a complete list of all gaskets, seals, and o-rings used in these FAT 5 transmissions. For more instruction and detail on where these pieces are used see JIMS FAT 5 transmission instruction sheet No 8273-IS. It’s available online at www.jimsusa.com See JIMS Catalog for all the specialty transmission tools.

Use JIMS No. 1077 to remove the Fat-5 trap door and remove & install the door bearings.
